Petal Widths

Figure

Scatterplot of petal widths vs. length by species type

Summary statistics

The following table summarizes petal widths by species type:

Species	Petal Width		
	mean	SD	median
setosa	0.2	0.1	0.2
versicolor	1.3	0.2	1.3
virginica	2.0	0.3	2.0

[1] n = 50 for each species
